

AIM:

To document and present all the modules of Book Buddy, a book sharing platform.

ABSTRACT:

Book Buddy is a vibrant community for book lovers to share, borrow, and discover new reads. It encourages users to lend books they've finished instead of letting them gather dust, while helping others access those stories. By creating an account and filling in preferences like favorite genres or authors, users receive personalized recommendations and can search for books they'll love. Borrowing is easy: request a book, check its condition, and connect with nearby lenders or opt for shipping. Users can borrow one book at a time, and lenders may set fees for rare books. Beyond borrowing, the platform fosters connections through reviews, discussions, and social features like following friends and earning badges via reading challenges. A virtual bookshelf lets users manage their personal collections, while bookstore integration allows buying unavailable books. With multi-language support, donation drives, and a community-driven approach, this platform is about more than just books—it's about sharing the joy of reading.

MISSION:

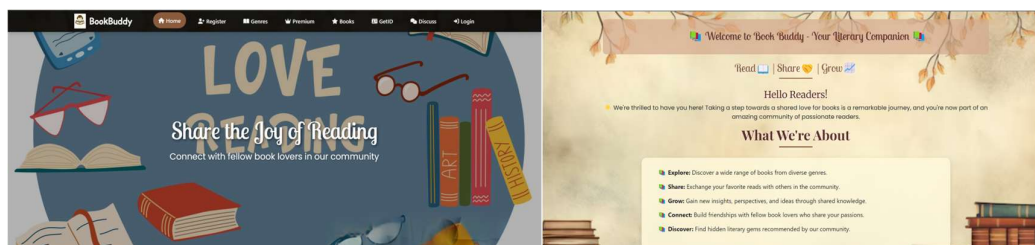

Book Buddy's mission is to create a vibrant community of readers by promoting book sharing, meaningful connections, and sustainable reading habits. We aim to make literature more accessible by enabling people to exchange books, discover new stories, and build friendships—one book at a time.

VISION:

To become the go-to platform for book lovers to share, connect, and build a world where stories are never left unread.

HOME PAGE:

Welcome to Book Buddy! Explore the platform, discover new books, and start your journey of exchanging stories with fellow readers.
